## Red Cross Quilt To Be Raffled Saturday Night

The Autograph Quilt, the handiwork of the ladies of the local branch of the Red Cross Society, for which tickets have been selling during the past few weeks, will be drawn for at the Blairmore Opera House on Saturday night, June 29th.

## Council Will Enforce Pound By-Law

At the regular meeting of the Blairmore town council last night only the Mayor and Councillors Johnston, McVey and Lagace were present.

The minutes of last regular meeting were read and approved, and a number of accounts were passed for payment.

A largely signed petition from citizens was received, praying that the council revoke the pound by-law and permit cattle to roam at large within the town provided all bells be removed.

A number of complaints were heard from ratepayers of damage being done by straying cattle, and the council were asked to strictly enforce the pound by-law in their interests. As the majority of the petitioners were not even ratepayers and as the idea of allowing cattle to run at large was unreasonable and not in keeping with a respectable community, the Council decided by motion to strictly enforce the pound by-law, and Councillor Johnston gave notice that at the next regular meeting of the Council he would introduce an amendment to By-Law No. 10, providing penalties for infractions.

A letter was received from W. J. Heller, who it will be remembered, met with a rather serious accident in February last, by falling to the ground with a light pole, breaking both legs and sustaining other bodily injuries which put him out of commission for the past several months. Heller was obliged to take hospital treatment for about three months and although out of that institution for some weeks he is still unfit to enter upon his vocation as a fireman. Heller informed the Council that he had reconsidered his plan to take legal action against the town, and would accept the sum of \$800, which would permit him to pay his hospital and other bills incurred through the accident. On motion it was decided to pay Heller the \$800, on condition that he sign a clearance from the town.

No other business appearing, the Council adjourned.

## Sanatorium Patients Guests of Automobile Association and Ladies of The Red Cross

On Wednesday afternoon the staff and patients of the Frank Military Hospital were the guests of the Greater West Park Automobile Association to an auto drive and picnic at Crow's Nest Lake.

The author was ideal for the occasion, as that practically all the patients of the institution could be permitted to take the outing.

Automobiles were available for the outing were those of A. M. Morrison, T. W. Davies, C. Olinette, G. Kolbeck and O. E. S. Whiteside of Coleman; J. R. Smith, J. E. Ellis, R. Green, and Dr. R. K. Lillie of Blairmore; L. P. Robert, of Bellevue; Dr. A. Ross, of Hillcrest.

Members of The Pass branch of the Red Cross and other friends accompanied the party and served refreshments at the lakeside.

The outing was indeed enjoyed by the patients, and the efforts of The Pass automobiles in their behalf is very much appreciated. Following is a letter of appreciation which has been forwarded to the secretary of the Automobile Association by Lieutenant C. H. Kerr, officer commanding the Frank Military Hospital, in behalf of the patients and staff:

"The Sanatorium,  
Frank, Alberta,

June 27, 1918.

The Crow's Nest Park Auto Association,  
Blairmore, Alberta.

Ladies and Gentlemen:

I beg to convey the thanks and gratification of the patients and staff of this institution for the splendid outing you gave us yesterday. Everyone enjoyed themselves immensely and your transportation coupled with the good work and food of the Red Cross Association, made the afternoon a huge success.

If it were only possible for one and all of us to thank you personally, I am sure you would realize how much we appreciate your kindness and consideration.

Once again I thank you and wish your Club every success and better roads.

Yours very truly,

C. H. KERR, Lieut.,  
Hospital Commandant."

## School Concert a Success

The concert given in the Blairmore opera house on Friday night of last week, by the children of Grades I to IV, can be considered quite a financial success. The sum of \$88.00 was realized, and after paying expenses to the amount of \$37.00, the net sum amounted to \$51.00. Thirty dollars have been handed over to the Red Cross, and the balance for school purposes. Following is receipt from Red Cross:

"Received from Miss McCall the sum of \$30.00 for Red Cross purposes, realized from a concert given by children of Grades I to IV. (Signed) Mrs. J. M. Carter."

## Frank Mines Close

Down Definitely

It was officially announced on Wednesday that the Frank mines of the Franco-Canadian Collieries had closed down.

As a result of the closing down of the Frank mines some 150 men will be out of employment, but already a large number have secured places with the West Canadian Collieries at Blairmore and Bellevue.

Grier Brothers, of Macleod, suffered a loss of about \$12,000 in the burning of houses on their ranch at an early hour on Friday morning last.

## Nothing Like It For Bronchitis And Weak Throat

REMARKABLE CURES IN THE WORST CASES REPORTED DAILY

### Cures Without Using Drugs

Doctors now advocate an entirely new method for treating bronchitis and irritable throat. Stomach dosing is no longer necessary.

The most approved treatment consists of a healing vapor resembling the pure air of the Adirondacks.

This soothing vapor is full of germ-killing substances, and at the same time is a powerful healing agent. It is sent to the bronchial tubes and lungs through a specially devised apparatus which can be carried in the vest pocket. Simplicity itself is the keynote of this splendid treatment.

**CATARHOSOL** is the name of this wonderful invention, that is, during chronic cases of cough, throat, bronchitis, and catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs. It can't fail to cure because it goes where the trouble really exists, and doesn't attempt to "cure" an illness in the head or throat by means of medicine taken through the stomach. Catarrhosol is a direct, breathable, scientific cure.

There is no suffering from a grippiness or any winter ailment that won't find a cure in Catarrhosol, which is employed by army physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months; small size, one month; guaranteed; small size, 50¢; sample size, 25¢; all catarrhosols sold druggists, or the Catarrhosol Co., 1400 Kingston, Canada.

## American Ace was Soldier of Fortune

Wandered Over the Earth in Many Adventures and Diverse Vocations

Raoul Lufbery, had he lived by the St. Lawrence two centuries ago, would doubtless have been a "derring-do" one of those half-breed Frenchmen who left civilization behind and sought adventures in the forests of the north. Lufbery was the son of an American, who was the son of a German, and with a record of 10 years' service in the German army, he was a soldier of fortune, and he lived his life. When the war broke out, he was a soldier of fortune, and he lived his life. When the war broke out, he was a soldier of fortune, and he lived his life.

Lufbery was born in France 44 years ago, his father being an American and his mother French. When he was six his mother died, and he was left in the care of his father. He was a soldier of fortune, and he lived his life. When the war broke out, he was a soldier of fortune, and he lived his life.

One night, for the sake of his personal preference, he was in the condition of his father, he was a soldier of fortune, and he lived his life. When the war broke out, he was a soldier of fortune, and he lived his life.

Lufbery then returned to Algeria. He fell in with a Canadian and joined him in a journey to Constantinople. On the way they were held up by robbers, stopped, and their clothes, hats, and boots were taken. They rode all night over a hill desert, and in the settlement of two houses in the morning. The people said they had been a long time, and they were very tired.

See Your Eyes! No Smearing, Just Eye Comfort

See Your Eyes! No Smearing, Just Eye Comfort

when the wanderers languished too they were taken in, fed and clothed, and made into soldiers. This was the first time the future ace was a military uniform.

After the Lufbery left Algeria, going to Constantinople by way of Switzerland and Roumania. After other adventures he arrived at Paris, Germany, where he worked for two years in a brewery, and contracted tuberculosis. He then went to Hamburg, and took ship to the United States, and was once more with his family, now in New England, though he missed his father, who had died for some two days previously. He learned English, and made friends with a few people in Wallingford, and a young Italian with a great fondness for music.

"He was very beautiful then," he had such nice eyes," said his sister-in-law, who told The New York Times of the life of the ace. "Raoul soon became restless again, and went to New Orleans, where he worked in a factory, then to Mexico, and finally to San Francisco. In the latter city he was a waiter for a hotel, but he soon left for Honolulu, Hawaii. There he worked with the American army, to the Philippines for 18 months. He then went to Hong Kong and Canton, then there was a long silence. At the beginning of the war he enlisted in the French army, and was in the front line, and in May, 1916, he joined the Lafayette Escadrille for 18 months. He then went to the front line, and in May, 1916, he joined the Lafayette Escadrille for 18 months. He then went to the front line, and in May, 1916, he joined the Lafayette Escadrille for 18 months.

Well, how is everything up at the old Wallingford? I would like very much to see it back again. Unfortunately, I must give it up for the present. For I should like to organize some sort of a flying circus for the Germans before I leave here."

## New Beef Cattle for Canada

Interest in Preserving From Extinction the Musk Ox

Vijthmar Stefanon, the commander of the Canadian Arctic Expedition, who is recovering from a serious illness at Herby Island in the Arctic region, believes that in the musk-ox Canada has a perfectly invaluable means of physical defense. Writing to Mr. John B. Burnham, president of the North American Game Protective and Enthusiast Association, the explorer says:

"From what I have heard, I take for granted that the musk-ox is a creature from extinction so unique an animal as the musk-ox. Through my intimate knowledge of the musk-ox, I have come to consider him at least as valuable an animal, if domesticated, as any other animal that we have."

"I calculated he can convert his body into a machine, and he can fire to death he jumped from a height of 150 feet and landed on his feet, and he can fall in a flower garden. When other flyers reached the scene, the French people were tenderly covered the body with flowers."

Lufbery was born in France 44 years ago, his father being an American and his mother French. When he was six his mother died, and he was left in the care of his father. He was a soldier of fortune, and he lived his life. When the war broke out, he was a soldier of fortune, and he lived his life.

## Make Every Chicken Count

Rules for the Proper Care of the Young Chick

The aim this year should be to make every chicken count. Make every chicken lay her best, make every chicken mature early enough, and thereby make every pound of eggs the maximum return.

Hatch early. Make every effort to get your chicks out this spring before the first of June. As a rule the heavier breeds hatched later than that date are no satisfactory. At least 90% of the pullets in Canada were not laying during November and December of the past winter because they were hatched too late.

When the chicks are removed to their brooding quarters there should be some coarse sand or fine chick grit scattered where they have free access to it. They should be left until they show positive signs of hunger, which would be between the second and third days after hatching. They may then be given some bread crumbs that have been very slightly moistened with milk. This may be scattered on clear sand or chick grit. If being brooded by a hen she will see that no food is allowed to be around, but if in a brooder, that part of the food that the chicks do not pick up in a few minutes should be removed, as nothing is feeding cause so much trouble as leaving food that is not around until it is sour.

The following daily ration of five feeds given about two hours and a half apart and continued from the time the chicks are two to three days old of the shell until ten or twelve days of age may be altered or adapted to suit the conditions.

First feed—Dry bread crumbs slightly moistened with milk.

Second feed—Finely cracked mixed grains or commercial chick feed.

Third feed—Rolled oats.

Fourth feed—Dry bread crumbs moistened with milk.

Fifth feed—Finely cracked mixed grains.

In addition to the above, give the chicks a little green food, such as grass, lettuce, sprouted oats, etc. Do not have the moistened bread sloppy but in a crumbly state, and during this period let the chicks get on fresh soil or grass every day if possible.

## OUR BOYS IN EUROPE

AND HOME PROTECTION

The men on the front line represent the pick of our country's youth. Many of them are of the finest physical build. Many times the kidneys were to blame.

If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce's Great Kidney and Bladder Medicine is the only medicine that will do it. It is the only medicine that will do it. It is the only medicine that will do it.

## What The Press Received For Advertising The Victory Loan

Various estimates have been made as to the amount the press received from the Government in connection with the press publicity for the Victory Loan, but the actual figures paid are being set forth in audited statements submitted to the Annual Meeting of Canadian Press Association, Inc., held in Toronto on June 20th and 21st.

The total amount paid by the Government for advertising space was \$160,410.81, which was distributed among 1,400 newspapers and other publications. Approximately \$5,000 was spent in the preparation and distribution to the press of a large number of special articles, illustrations, cartoons, etc., which were inserted in the press without charge. The setting of type and making of duplicate plates of the advertisements for the various publications used and the fees paid to the five co-operating advertising agencies for their services cost in the neighborhood of \$37,000, making the total expenditure \$208,160.00.

As the total cost of floating the Loan was approximately \$5,000,000, the Government's expenditure on press publicity represents less than five per cent of the total expenditure. It is interesting to note also that the press publicity cost only one twentieth of one per cent of the total amount subscribed to the Loan.

The press publicity for the Loan was handled by Canadian Press Association, Inc., and the officers of the Association and its individual members co-operated splendidly in making the campaign a success. During three months last fall most of the time of the President, Mr. J. H. Woods, Calgary, "Herald," and the office staff was devoted to the preparation of press releases, and for several weeks the committee of publishers in charge were in almost constant session. The individual members, on the other hand, contributed, without charge, space in their newspapers and other publications, which, if calculated at their regular commercial rates, would run up to more than the total amount paid for the advertising space.

Neither Canadian Press Association, Inc., as such, nor any of its officers or committees, received any remuneration for their services in connection with the Loan, those services being given voluntarily and in the spirit of national service.

Bolshevik doctrines have brought Russia down from one of the greatest food producing countries on the globe to a condition of starvation. Drunk with liberty, which they did not understand, filled with idealistic notions about the equality man, and lacking individual initiative, production in Russia has practically ceased, according to the evidence reaching the outside world. Transportation and distribution is so disorganized that even were the peasants of the land producing their usual amount of foodstuffs, the people in the manufacturing population would still be without the necessary food supplies to sustain them in safety and comfort. Unless the people of Russia steady down and organize themselves or allow other authorities to organize them, there is the possibility of one of the most stupendous disasters in the history of the world. Without authority for whom they have fear and respect, the Russian peasant seems to be without motive or initiative. We read of peasants in their anger against the property holding class of the late aristocratic regime, destroying not only the personal effects of the nobility and the owning class, but the very crops which they had themselves under the former social organization produced for the nation at large. In their reaction against property owning, they have destroyed the goose that laid the golden eggs. We read of peasants in certain villages, having gone to such extremes as to seize the cattle of the local land owner, now disposed, fly themselves and turn them loose. Without the old motive of compulsion to cultivate the land for the land-owner, now that the land has reverted to the peasants and they themselves are the owners, they have neglected to work and to produce the necessities of life. To such a pass is the nation drifting that recent dispatches are reported that they, the most civilized of present-day Russia, are sending plenipotentiaries to China, the fiercest despised and so-called decadent neighbor to the east, to make arrangements for provisions to take them over next winter. It is said that in China, one of the most densely populated areas in the world, living largely on rice

and very meagre fare, having sufficient surplus to feed 120,000,000 people in starving Russia.

Substitutes are sometimes quoted in this country as an ideal, worthy of imitation. The point is, which Russia has suffered because that substitutes and industry are not very far apart. The nation that will not weather the storm of this war, the loss in the nation that organizes most efficiently and disciplinarily itself, most effectively. Production must be carried on to a limit of our power. Destructive criticism and petty fault-finding are weaknesses and dangers. Unity of purpose and constituted leadership is essential. It is a case of a strong pull, a long pull and a pull together. Men must be found for the army, for munition making and for food production. Non-essential industries must provide men for essential industries. Women in this country must take the place of men to the limit of their power when called upon. Farmers must recognize the necessities of war and the public in general must unite to save the harvest of 1918.

## The Summer Session For Teachers

Arrangements are now practically complete for the summer school for teachers which will be held this year as usual at the University of Alberta, in July and August.

The standard courses in agriculture and gardening, household arts, fine and applied art, manual arts, first aid and physical training will be offered as heretofore.

According to the regulations of the Department of Education, British and American teachers, whose professional standing is recognized in Alberta, are required to complete courses in history and civics, science, law, and geography with special reference to Canada, in order to become fully qualified in the province. Instruction in these courses will be given by C. S. Samsen of the Calgary Normal School and Miss Dickie and W. A. Sickle of Camrose.

Several courses are being offered this year for the first time. Teachers who wish to specialize in primary work will have an opportunity of securing more complete training in this field. This course will consist of lectures, demonstrations and class discussions. Special attention will be given music, dramatization, story-telling and games. Dr. Coffin of Calgary will have general charge of the instruction in this course.

To meet the needs of teachers who may wish to further perfect themselves in oral French a course will be given wholly in this language. Not only will the course include practice in speaking French but will give considerable emphasis to method in teaching the language with a careful study of the texts in use in the schools.

For the first time this year teachers have the opportunity of qualifying for first class certificates at the summer session. Three courses of study in education are being offered—one in educational psychology, one in administration and a third in educational problems. In these courses the latest educational theories, methods and practices will be explained and discussed. Such work will be of the greatest value to teachers who wish to qualify as principals and vice principals.

Teachers this year are finding the question "What shall I do during the vacation?" a difficult one. With the majority of the men overseas the women feel that they should engage in some sort of war work. Realizing that opportunities for this work are of necessity limited during the summer the Department through the summer school is offering opportunities of a varied character for the teachers to further equip themselves for more efficient service at home. Enrollment at any time up to the end of June.

It has always been the boast of the Director that the quality of instruction at the summer session has been of the highest character. This high standard will be maintained during the coming season. Several new instructors have been secured whose work will be both popular and of great value.

## New Bomb of Frightfulness

Fiegermann, a device of frightfulness, is the name given by the Germans to a recently perfected bomb, which according to their own claims will multiply one hundred fold the precision and effect of light bombardments. The bomb weighs less than two pounds, enabling an aviator to carry hundreds at a single trip and is said to be employed especially against crowds of people. Instructions found on the person of a German aviator officer made prisoner the other day say that in order to get the highest efficiency and permit of low flying aviators to see the result obtained the following methods are employed. First, the aviator must drop some incendiary bombs on the object of attack. After a pause of some minutes to permit the flames to get around the burning object as they naturally would in order to extinguish the flames, the aviator must drop the Fiegermann bomb into the midst of the groups.

The closing of the school for the summer vacation takes place today.

## Substitutes For Flour Must Now Be Used

Ottawa, June 28.—Compulsory use by bakers, confectioners, public eating places and private households of substitutes for wheat flour are prescribed in order issued today by the Canada food board.

The order defines as substitutes for wheat flour, "pure and wholesome corn, oats, barley, rye, buckwheat, lupin or pea flour, linseed, shorts, oatmeal, rolled oats, rice, cornmeal, cornstarch, linseed, rye meal, tapioca, or any mixture of same and potatoes." Four pounds of potatoes will be considered equivalent to one pound of other substitutes. The order provides that on and after July 1, one pound of substitutes must be used to every nine pounds of standard wheat flour.

On and after July 1 this proposition, so far as places east of Port Arthur are concerned, must be increased to one pound of substitutes to every five pounds of white or standard wheat flour. Quantities of substitutes available west of Port Arthur are at present too uncertain to allow of a date being named for an increase equal to that required for eastern Canada, but such increase will be made just as soon as the available supply of substitutes in western Canada is obtainable.

On and after July 15 no licensed dealer may legally have in his possession for sale any wheat or standard flour, or has also at all times a sufficient stock of substitutes to meet the demands of his customer at reasonable prices.

Persons at points east of, but not including Port Arthur, must purchase substitutes in the proportions of not less than one pound of substitutes to two pounds of wheat or standard flour, while persons west of, and including Port Arthur, must buy not less than one pound of substitutes to four pounds of wheat or standard flour. Dealers are cautioned, on and after July 15, to sell flour unless substitutes in the proportion stated, or to a greater proportion, are purchased.

On and after July 15 every baker must place on each loaf of bread a label or sticker bearing his name and address and the words "Victory Bread." The latter expression will guarantee that the prescribed amount of substitutes for standard wheat flour required by the Canada food board has been used in making the bread. Bread which does not bear such label or sticker may be seized.

The order makes it an offense for any person to sell or have in his possession any product, in which white or standard flour is used, which does not conform to the requirements of the food board. The penalty for violation of the new regulations is a fine of not less than \$100 and up to \$1000 or imprisonment for a term of three months, or both fine and imprisonment.

## A Knockout for Austria

Washington, June 28.—News from Italy, while confirming the great victory won by the Italians, in hurrying the Austrian army across the Piave in disorder, threw little additional light on the extent of the disaster to the enemy. Until figures are available showing more fully the loss of the dual monarchy in men and material, officials here hesitated to form opinions as to the probable effect the defeat would have on the whole military situation.

In the face of the latest news from the Italian front it appears to many observers that the Austrian army as an offensive weapon is not to be seriously considered for months to come. It will take time to repair the damage to morale and equipment. If the intensity of the attacks produced by shortage of food among the civilian population, does not further cripple Austria's military power. The dual monarchy, by itself, is believed here to be out of the fighting for the present summer.

What Germany plans to do to aid her chief ally, is another matter. As yet, there is no sign of a great movement of German troops on the Italian front. Unless such a movement is undertaken immediately, many officers here are convinced it will mean that Germany intends to seek to save the situation by attempting at once to complete her offensive projects in France.

Premier Lloyd George's announcement that the world is "on the eve" of great events, was taken in some quarters here to mean that he anticipated the delivery by the Germans of their utmost efforts in France within a matter of days. It is assumed that information has reached London showing that Germany has selected the alternative of fighting it out to the end in France rather than forego the advantages of her offensive there while she sacrificed lives to shield Austria.

General Foch's most doubtful hours have passed, it is believed, although months of bitter fighting may be yet ahead, while for the Germans a crisis is at hand.

Miss M. Buck, who has filled a position on the Blairmore teaching staff for the past six weeks, has resigned, having accepted a position on the staff of one of the Lethbridge city schools.

## Will Japanese Intervene When Asked By Allies?

London, June 27.—The "Yorokubu" a Japanese newspaper, dealing with the question of intervention in Siberia says: "What additional resources can the Allies muster? Prompt action by the Japanese army alone can save England, France and humanity. The Allies will soon request the intervention of Japan, who now stands like an archer with bow bent."

"The answer must be instantaneous. Japan's army exists in vain if it is not used to win the game which divides the world." Japan must call up half a million men, two millions, three millions if necessary and advance to the Urals, or beyond, until the main enemy is encountered.

"We will go as far as is necessary to check the German effectively. We fear difficulties and will shrink from no sacrifices, realizing that we allies must not see or succumb to Teutonic domination."

Tokio, Friday, June 21.—(By the Associated Press).—The newspapers today report that as a result of the deliberations of the advisory board on diplomatic affairs, Japan has decided not to comply with the request of the Entente and to refrain from intervention in Siberia at present.

In diplomatic circles it is believed that Japan, unless directly named, will not act without the support of the United States.

## Cold Storage

In a letter to Rev. Fred H. Graham, of Nelson, Capt. H. A. Pearson tells the following story:

A soldier at the front wrote a letter asking for \$50 and addressed it to "The Good Lord, care Y.M.C.A., France." His letter was so appealing that the boys in the "Y" got up a subscription and raised \$25 and got it to him.

He acknowledged the letter thankfully, but in his postscript he said:

"Good Lord, in case you send me any more money, don't let it come through the Y.M.C.A., as the last time they held out \$25 on me."

## Greece Has Big Army Training

Paris, June 27.—(Havas Agency).—Greece will shortly have more than two hundred thousand men under arms, according to a statement given out by the Greek legation here in the Matin.

The statement goes on to say that, in addition to the regular army, a large number of volunteers, beyond this number, are being called to the colors soon, it is added.

The notable work accomplished by the Hellenic Kingdom since its entrance into the war a year ago this month is reviewed and the achievement of Premier Venizelos in the eyes of the public confidence and effectively guarding the interests of the country is pointed out.

## Bolshevik Doctrines Fatal

"I think the greatest, the most radical, the most idealistic and the most fatal doctrinal declaration which any body of men has made has been by the Bolsheviks of Russia," said Mr. Samuel Gompers, the great labor leader. "And they have not only said the most from the bone, but they have made it a reality."

It is announced that Russian plenipotentiaries have been sent to China to endeavor to secure food supplies for the Russian people. Disorganization of industry and agricultural production in Russia under the Bolshevik regime is resulting in famine, starvation and misery. Unless relief is procured and the people settled down, they must perish.

A pleasant event took place last night at the home of Dr. and Mrs. H. A. MacDonald, when a party of about thirty friends waited upon them and presented them with a beautiful electric parlor lamp and flower vase. The presentation was made on behalf of the party by the Rev. W. T. Young, after which a musicale and chat helped to shorten the hours till the usual "principal" item—refreshments—appeared and disappeared. Dr. MacDonald and family leave here early next week.

The idea of a Good Roads Day has been suggested by some of the business people in The Pass, a day on which men and teams would be supplied by the business people and auto owners and others for one day's work on the roads between Coleman and Maple Leaf. The idea is a good one and while entailing very little cost would well repay those taking part in the work. Why not call a meeting of citizens of The Pass and talk this over, and make a Good Roads Day a practical reality?

While the Dutch are considering the damming of the Zuyder Zee, the Germans are damming the British fleet at Zebrugg.

J. O. Jones, of Lethbridge, former vice-president of District 18, U.M. W. of A., has been appointed assistant to fuel commissioner Armstrong.

Bardis at Craik, Saskatchewan, gagged and robbed Manager Charles Hill, of the Farmers' Trading Company, of \$1500 and set fire to the company's grain elevator and lumber yard, causing a loss of \$6000 bushels of grain and a million feet of lumber.

Mr. and Mrs. C. R. Pearson will leave tonight for Edmonton, where they will spend the summer vacation.

## Alberta Courts Have Right To Grant Divorce

An important decision regarding the granting of divorce in Alberta was handed down from the appellate division of the Supreme Court of Alberta this week, four judges being of the opinion that the courts here have the power to grant divorce, with Chief Justice Harvey dissenting. The judges who concurred in this ruling were Justices Stuart, Beck, Hyndman and Simmons.

The judgment was in the case of Board vs. Board, in which the petitioner seeks a dissolution of marriage between himself and his wife, the respondent, on the ground of infidelity. The matter came before Mr. Justice Walsh by way of motion by the respondent, to quash the petition on the ground of want of jurisdiction in the court to entertain it. Instead of hearing the application, the judge referred it to the appeal court, it being the first time upon which the right to grant divorces has been raised.

## PUBLIC NOTICE

### Military Service Act, 1917.

Men 19 and 20 Years of Age.

Harvest Leave.

Leave of Absence on Ground of Extreme Hardship.  
Procedure to obtain Leave of Absence.

Men Nineteen and Twenty Years of Age.

It has come to the attention of the Government that there is a widespread impression that young men of nineteen years, and those who became twenty since October 13, 1917, as well as those who may become nineteen from time to time and who have been or will be called upon to register under the Military Service Act, are to be immediately called to the colours.

This impression is quite incorrect. No date has yet been fixed for calling upon such men to so report for duty, nor has the question been brought before the Cabinet for decision. In view of the need of labour on the farm, it is most unlikely that consideration will be given to the matter until after the harvest is over, although of course the Government's action must be determined primarily by the military situation.

There is no further obligation incumbent upon young men of the ages above mentioned who have registered or who do so hereafter, until they receive notice from the Registrars.

Harvest Leave.

Some enquiries have been received as to the possibility of granting harvest leave to such troops as may be in the country at that time. No definite assurance can be given on this point as advantage must be taken of ships as they become available. On the other hand, harvest leave will be given if at all possible.

Leave of Absence on Grounds of Extreme Hardship.

It is desired that the Regulations respecting leave of absence in cases of hardship should be widely known and fully understood. Such leave will be granted in two cases:—(a) where extreme hardship arises by reason of the fact that the man concerned is either the only son capable of earning a livelihood, of a father killed or disabled on service or presently in service overseas, or in training for such service, or under treatment after returning from overseas; or the only remaining of two or more brothers capable of earning a livelihood (the other brother or brothers having been killed or disabled on service, or being presently in service overseas, or in training for overseas or under treatment after his or their return from overseas); brothers married before 4th August, 1914, living in separate establishments and having a child or children not to be counted, in determining the fact that the man is the "only" remaining son or brother; or where extreme hardship arises by reason of exceptional circumstances such as the fact that the man concerned is the sole support of a widowed mother, an invalid father or other helpless dependents.

It is to be noted that in all these cases the governing factor is not hardship, loss or suffering to the individual concerned, but to others, that is, members of his family or those depending upon him.

Procedure to obtain leave of absence.

A simple system for dealing with these cases has been adopted. Forms of application have been supplied to every Depot Battalion and an officer of each battalion has been detailed whose duty it is to give them immediate attention. The man concerned should on reporting to his unit state that he desires to apply for leave of absence on one or more of the grounds mentioned and his application form will then be filled out and forwarded to Militia Headquarters, Ottawa. In the meantime, if the case appears meritorious, the man will be given provisional leave of absence for thirty days so that he may return home and continue his civil occupation while his case is being finally disposed of.

ISSUED BY DEPARTMENT OF MILITIA AND DEFENCE,  
DEPARTMENT OF JUSTICE.

### Bellevue Happenings

The new Bellevue post office is fast nearing completion. The new building is well arranged and conveniently located.

Johnson & Cousens have been enlarging their stock lately, and are now well prepared to cater to the grocery and provision trade.

The ditch in front of the old Bellevue hotel, formerly spanned by a bridge which was destroyed by the big fire last year, has been filled in with gravel.

Recently the store of S. T. Humble has been somewhat remodelled, and patrons will find larger stocks, better display and lower prices than ever before offered by a local dealer in hardware and furniture.

Considerable alterations are being made to Cantalini's pool room. A partition, mainly glass, has been erected to separate the pool room at the rear from the barber-shop and soft-drinks emporium at the front. The pool room has six pool tables and one large billiard table, and has ample light from side and back windows.

Bellevue now presents some of the best evidences of agricultural and horticultural possibilities in Southern Alberta, all the result of the influence of the new Horticultural and Industrial Club. Keen competition is on, and the exhibition to be held early in September promises to be very interesting. The new club already has a membership of over sixty, the majority of whom are competitors.

A visit to the Bellevue store of P. Burns & Co. will convince one that the company is out to give nothing but clean, honest service to its patrons. Of late, the store has been overhauled by the painter, and today both inside and out the premises are as spic-and-span as could be found anywhere on the continent. This store is equipped with one of the most modern systems of refrigeration and ventilation, and one can always rely upon the quality of goods dealt out to them.

The new cafe recently opened by Mrs. B. A. Dunsmore in the West Canadian block, is proving to be a popular resort. The name adopted denotes an invitation to the weary and hungry passer-by—"Dew-Drop Inn"—or "de drop inn," and once you are in it's a cinch that you will leave the place satisfied that an institution has arrived to fill a long-felt want. For the present but light refreshments are being served, but it is the intention of Mrs. Dunsmore to serve meals and otherwise cater to the trade.

Fishing licenses may now be obtained from L. Dutil, at the Blairmore Hardware store.

Flour from which Russian black bread is made is selling for \$150 a barrel in Moscow.

At the regular meeting of the Blairmore school trustees last week quite a number of applications for positions on the teaching staff here were received.

Between 115 and 120 men are reported to have been buried in a silver mine near Virginia, Minn., as the result of a dynamite explosion yesterday morning.

Revs. W. T. Young and H. Peters have been busy the past few days erecting tents and laying out the grounds for the summer school, which will open at Star Creek on Tuesday next.

The capture of 45,000 prisoners and enormous stores of war materials by the Italians in their counter-offensive which has driven the Austrians across the Piave river, is announced in an official cablegram.

The Lethbridge Herald has undertaken to supply the boys of the Frank Military Hospital with up-to-date reading matter in the shape of periodicals and magazines, and has appealed to citizens to donate their periodicals each week after they are through with them.

### Bellevue Happenings

Mrs. Fred Hensen was a visitor to Blairmore during the week.

A large number of Bellevue Waltonians were out on Sunday last.

Mrs. McAdam spent the week end with her parents at Pincher Creek.

Mrs. Watts Goodwin and her daughter Olive went to Calgary on Friday last.

R. Connolly went to Pincher Creek on Saturday night to spend a few days.

Mrs. Steve Rosa and Mrs. B. Bartino made a business visit to Coleman on Wednesday.

Master William Williams is home from college, to spend the holidays with his parents.

Mrs. A. Charlesworth and children have returned from Calgary, where they had been residing for a time.

Despite the rainstorm on Sunday afternoon last, the Oddfellows turned out to decorate the grave of the late Bro. John Hood at Hillcrest.

A number of parties were brought before the J. P. on Monday, charged with failing to comply with the registration regulations. Fines were imposed in several cases.

We understand that Noble McDonald has successfully passed his examination for superintendent's papers, and John Jackson, William Parks and M. Boyia for pit boss. Luke Lindoe has secured surveyor's papers.

What might have been a very serious accident occurred here on Wednesday when Tony Allazetta attempted to use the new dump road near the Bellevue Bakery. Owing to the earth not being settled, the car slid and rolled to the ditch about forty feet below. How the occupants escaped being killed is a miracle, but all escaped with but a few minor scars. The car is in a bad shape, three wheels being broken as well as other damage.

The female jail at Lethbridge is  
being abolished.

Pto. Albert Evans was down  
from Calgary for a few days this  
week.

J. Delicate has secured the contract  
to erect a new residence for  
S. H. Turner at Riverside.

Some party paid a federal income  
tax in New York the other day  
amounting to fourteen million  
dollars.

R-G Drinnan is resigning the  
managership of the Hillcrest mines,  
and we understand will be suc-  
ceeded by W. Stevenson.

In Saskatchewan and British  
Columbia parties in whose posses-  
sion whiskey is found are fined or  
imprisoned. Different here in Al-  
berta—they're drunk.

Russian Red Guards are reported  
to have broken into the resi-  
dence of Nicholas Romanoff, the  
former Russian emperor, at Ekaterin-  
burg and murdered him.

In rural parts of Schleswig Hol-  
stein they speak of a place as be-  
ing a pipe, two pipes, or three pipes  
distant, according to the number of  
pipes of tobacco one could smoke  
while walking there.

A shipment of about three  
sand sheep from the Raymond  
district was unloaded at Blairmore  
on Wednesday morning and are  
being pastured near Grassy Moun-  
tain for the summer months.

Fred Lund, a Swedish miner,  
met with a rather serious accident  
in the Blairmore mine on Saturday  
last, sustaining a dislocation of the  
hip. The limb has been re-set and  
Lund is now on the mend.

The marriage of Miss Gladys  
Ennis, second daughter of Mr.  
and Mrs. Samuel Ennis, of Blair-  
more, to James McLean, of Lund-  
breck, was solemnized by the Rev.  
W. T. Young at Frank on Wed-  
nesday evening.

Part of the residence of Joseph  
Lahaye, of St. Alban, Port Neuf  
County, Quebec, was demolished  
about 2 a.m. on Saturday by a bomb.  
Mr. Lahaye was acting as a  
registrar for the National Regis-  
tration of the Canadian man and  
woman power.

Joseph Hesketh, aged 35, of  
Hamilton, Ontario, employed as  
an electrician at the plant of the  
International Harvester Company,  
was crushed to death last week  
when a fifty-ton crane passed over  
his body. It took two hours to  
get the remains from under the  
big crane. Hesketh was married  
and leaves three small children.

It is officially announced through  
the chief press censor's office that  
the following troops have arrived  
in England: First Tark Battalion,  
Ottawa; Infantry drafts from  
Toronto; Cavalry draft, North  
West Mounted Police; Artillery  
draft, Woodstock, N.B.; Nursing  
Sisters; Details. A total of 3,492.

It has been estimated up to a  
recent period that 4,700,000 people  
in Europe have been starved to  
death since the beginning of the  
war. Unless the 1918 harvest is  
saved starvation will become gen-  
eral throughout Europe and the  
suffering among the civilian popu-  
lations of our Allies unprecedented  
in the history of the world.

Today, as was the case a century  
ago before wheat was imported,  
(says a bulletin from the British  
Ministry of Food), there are no  
cereals available for cattle. There  
are not even any alfalfa, for barley  
and corn are so milled for bread  
that there is practically nothing  
left over for cattle food. Food for  
hums is taken precedence over food  
for the beasts of the fields.

Vancouver's Y.M.C.A. drive has  
netted over \$173,000 to date.

Miss Jewel McDonald and Mas-  
ter Hugh John McDonald arrived  
home from Edmonton on Sunday  
morning last for the summer holi-  
days.

Germany's newest submarines  
are said to be 450 feet long, with  
20,000 horsepower engines. They  
carry six guns, 75 torpedoes, and  
150 mines.

In the United States the fourth  
Liberty Loan this fall will prob-  
ably be for at least \$6,000,000  
and is likely to be floated in Octo-  
ber.

Mr. R. Ihey, district manager for  
the Goulay Piano Co., has just  
been here and appointed Mrs. J.  
R. Warner agent for their pianos  
and the Estey organs.

A U.S. aviator delivered mail  
recently at the rate of 147 miles an  
hour. This is almost as speedily as  
spreading news by the time hon-  
ored custom of telling it as a secret  
to a woman.

The tomb of Charles XII. is to be  
opened in order to ascertain  
whether the bullet which killed him  
at the siege of Fredrikshald, in  
Norway, came from the front or  
the rear.

Among the 76 names on the  
honor roll of Mount Royal College,  
unveiled Sunday last at Calgary  
by Col. George MacDonald, we no-  
tice the names of Lieut. Harry W.  
Clark, R.F.C., and Arthur Pelle-  
tier, both of Coleman.

The following shipment was  
made by the local Red Cross  
branch to the central depot at  
Calgary: 4 day shirts, 27 flannel  
binders, 103 towels, 120 "T" hand-  
kerchiefs, 14 cotton binders, 24 slings,  
5 amputation covers, 3 pairs bed-  
sheets, 127 hospital handkerchiefs,  
220 wash cloths, 9 pairs socks, 73  
personal property bags.

Florence Begg, sister of Walter  
Fegg, a farmer near Whitha, Alta.,  
committed suicide by drowning on  
Friday night or Saturday. Begg  
saw his sister last on Friday night  
about 10 o'clock. On going to call  
her on Saturday morning he dis-  
covered that her bed had not been  
slept in and after searching all day  
Saturday he found her body in a  
lake half a mile from his home-  
stead.

The meat market of Cyr &  
Smith's at Cowley was broken into  
on Sunday morning last by an un-  
known party, who got away with  
a number of articles, including  
several auto tires and tubes, a case  
of eggs and meats. Leaving Cyr &  
Smith's the party continued on  
to the store of W. Tustian, where  
considerable rifling was transacted.  
Judging from the class of articles  
taken, the party must have either  
been fitting out for a camping ex-  
pedition or a straight dash across  
the international boundary line.  
The police are on the job, but so  
far no clue to the thief has been  
obtained.

The burglar's wife was in the  
witness box, and the prosecuting  
counsel was conducting a vigorous  
cross examination.

"Madam, you are the wife of this  
man?"

"Yes."

"You knew he was a burglar  
when you married him?"

"Yes."

"How did you come to contract  
a matrimonial alliance with such  
a man?"

"Well," said the witness sacra-  
mentally, "I was getting old, and had  
to choose between a lawyer and a  
burglar."

The cross-examination ended  
there.

The Red Cross weekly meetings  
will be held at Mrs. Carter's in  
future.

Constable R. B. Gate, R.N.W.M.  
P., of Macleod, was visiting old  
friends in The Pass on Wednes-  
day.
